DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,4,7,10,13-14,19-20 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Geiser'448 substantially for the reasons of record.

The amendments and remarks filled by applicants on July 28, 2008 have been fully considered. The rejections based on 35 USC, 112 have been removed in view of the amendments to the claims. However, the claims remain unpatentable in view of the new rejections and prior art of record. The examiner maintains that the prior art reference teaches particles that have multiple diameters of the size within the claimed particles sizes. The prior art particles have grooves of a specified dimensions that impose edges and other shapes on particles.
